

Kawasaki Precision Machinery (U.S.A.), Inc.

March 23, 2020

**Re: Kawasaki Precision Machinery (U.S.A.) Inc.**

**State of Michigan Executive Order (2020-12)**

**To: Our Distributor Partners and O.E.M. Customers**

On today's date, the Governor of the State of Michigan has enacted Executive Order no. 2020-21, commonly referred to as the "Stay Home, Stay Safe" order. Businesses exempt from this order are entities that conform to the guidance provided from the Department of Homeland Security's, Cybersecurity & Infrastructure Security Agency. Kawasaki Precision Machinery is part of the Critical Infrastructure Sector and is an Essential Business.

Kawasaki Precision Machinery conforms to this guidance and supports the following Essential Critical Infrastructure Sectors:

Critical Manufacturing Sector	Food & Agriculture
Energy	Transportation
Emergency Service	Petroleum & Natural Gas
Transportation and Logistics	Public Works

Kawasaki Precision Machinery will remain open based on our Essential Businesses status. We will continue to manufacture, supply, and provide services for these Essential Sectors during this time period. Kawasaki employees performing these necessary operations have been instructed to comply with social distancing and other protocols set forth by the CDC to minimize the risk of COVID -19 infection and/or spread.

In order to minimize the disruptive impact of this force majeure pandemic event and to continue to supply in a timely manner, we ask that you provide a statement indicating if your company is exempt from any Stay at home, Shelter in Place or Stay at Home/Safer in Place initiative and the criteria used to determine that your company is an Essential Business.

Thank you for your understanding and cooperation as we work through this situation. Should you have any additional questions, please contact your Kawasaki sales representative.
